Good Day Gentleman,

I hope this finds everyone doing well! Just wanting to touch base with you both and let you know where the new schedule is thus far. Of course all the parties have not agreed on a new date yet.

Texcom wants first of March
We want in May-July

We are currently working on asking for the SOAH hearing to be moved back to Montgomery County....That is the right thing to do!! That is really the only way we can afford to have new experts we have be able to testify. If it is in Austin we just can't afford it and once again another strike against the citizens. If you have any suggestions on this that would be helpful. ALL of our officials are writing to ask for this....so we shall see.

Did you all get the Disk with the new fall off testing info?
Have you taken our issue to the new "Big" man on campus yet?

We have been advised we should meet with the new Regional Administrator....Since he is not as familiar with the UIC programs and it's issues.

Dr Carman of the Sierra Club feels we could help educate him to some of the issues that are so critical for Texas. Your thoughts? How would be the best way for us to request a meeting? We would need to book it a least a couple weeks out for us to make arrangements to come to Dallas.

Thank you and look forward to your reply.
